Regulation (EC) No. 1907/2006 (REACH) and SCIP database established for the Waste Framework Directive (WFD)

Detmold, 30.01.2024

Page 1 of 2

According to the Regulation 1907/2006 “REACH” and in particular the obligations resulting from Article 33 we herewith declare based on our supplier statements that substances of very high concern (SVHC) published by the European Chemical Agency [ECHA] are present in some of our products above their respective thresholds.

All Weidmüller suppliers are informed about the REACH requirements and hence arising legal duties. If new SVHC are promulgated by the ECHA, or new materials or products are included in our portfolio declaration duties resulting from Article 33 can potentially apply. As soon as our suppliers report the presents of any SVHC in purchased goods and if the total amount of one SVHC exceeds the threshold of 0.1 % w/w in our products we will publishing these information in the online product catalogue at each product to enable our customers the fastest data exchange.

SCIP is the database for information on **S**ubstances of **C**oncern **I**n articles as such or in complex objects (**P**roducts) established under the Waste Framework Directive (WFD). Companies supplying articles containing substances of very high concern (SVHCs) on the Candidate List in a concentration above 0.1% weight by weight (w/w) on the EU market have to submit information on these articles to ECHA.

Weidmüller also fully complies with this obligation. There is no obligation to disclose the SCIP notification number corresponding to the product to third parties in this framework. However, in order to simplify further processes for our customers, we also provide the SCIP notification number in the online catalogue, directly below the REACH Article 33 information (if applicable).

This information and our technical advice – whether verbal, in writing or by way of trials – are given in good faith and to this best of our knowledge but without liability and warranty, unless the liability or warranty is admitted by law. This also applies where proprietary rights of third parties are involved. Our advice does not release you from the obligation to check its validity and to test our products as to their suitability for the intended processes and applications. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control and, therefore, entirely your own responsibility. Our products are sold in accordance with the current version of our General Conditions of Sale and Delivery.

Weidmüller is focused on the compliance of legal requirements resulting from REACH and WFD (SCIP). The providing of data for all individual customer specific needs in this particular field will yield in an unnecessary data exchange which cannot be handled cost-effective for all effected supply chain members!

We kindly ask for your understanding that we will answer questionnaires etc. with this letter, the information provided by our website and online catalogue.
