Borgo Ticino, 11 September 2024

Subject: The EC Regulation 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals ("REACH Regulation")

Reference: all item we supply to you.

We hereby wish to inform you that, as a "downstream user" of chemicals (as well as producers of items), we have carried out the necessary communications and have undertaken the process within our supply chain in order to ensure compliance with the requirements of the REACH Regulation.

We can confirm that, to date, all substances contained within our products have been registered either by our suppliers or by their respective upstream suppliers. Moreover, none of the products supplied by Fandis S.p.A. contains substances subject to restriction as per Annex XVII.

We do not foresee any interruption in the supply of products and we will promptly inform you of any changes in this regard.

We are closely monitoring the SVHC candidate list and we are aware that the ECHA Member State Commission, on 27 June 2024, has published the last updating of this list.

We inform you that in some products marketed there are chemicals on the "candidate list" in a concentration greater than 0.1% (weight / weight).

The list of articles containing the SVHC substances with their SCIP number can be found in the annex at the end of this statement.

The continuous updating of the SVHC "candidate list" requires us to constantly monitor the impact that any further new substances may have on the products supplied to you. We therefore renew our commitment to promptly notify you of any changes in this regard, in accordance with the REACH Regulation.

Kind Regards

Silvano Zilioli
C.E.O.
